about

KONSORT is a technology partner for entrepreneurs. We are constantly developing and testing new equipment solutions in our innovation center.

our goal

To increase the productivity of the client's business by automation and innovative solutions.

was founded
in 2006

more than
550 employees

Ukraine
Poltava

Main activities

production

distribution

service

Products

- sorting systems
- processing lines
- conveyors
- calibrators
- industrial washers
- weighing and warehouse equipment

more than
5000 projects
were implemented successfully

Why should you choose us?

an individual approach
to each client

in-house production

production time is faster
than 93% of competitors

operational support
and service

optimal producer prices

Stages of our interaction

Request. We specify all the questions and problems that you would like to have been solved. The design department makes calculations of the project (if necessary, our representatives go to the customer's enterprise for measurements). We provide a commercial offer.

Documentation. We prepare a contract and a product specification, which describe in detail the equipment characteristics and provide a detailed diagram (3D model) with dimensions.

Approval. We make sure that you have clarified all the details and approved the project 3D model. After an advance payment has been made, the order manufacturing process starts.

Control. You will be aware of each production stage, as a personal project manager will send you photos and video materials of the current production situation. You can also come to the plant at any time to watch the process. The Quality Control Department provides an independent control to prove the products conformity to the agreed requirements and guarantee you this compliance.

Installation. After manufacturing we ship your order, and our specialists install the equipment at the destination place, carry out configuration, testing and instruction. And only after that you make the final payment.

Service. Maintenance, configuration, training and consulting, equipment repair 24/7. We have 20 of our own service sites throughout Ukraine, so you can be sure of your production continuity.

Solutions

complex technological line for fowl processing, productivity +30%

solid waste sorting line, 50 000 tons per year

parcel-sorting complex, automation of postal terminal, productivity x3

СООТВЕТСТВИЯ TY CERTIFICATE

201299161

Manufacturer

LLC «STOREHOUSES MODERNIZATION SYSTEMS»
3B Svitla street, Shcherbani village, Poltava district
Poltava region, 38750
Ukraine

Product: Belt Conveyor

Type: KS

Model: KS-1; KS(B)-1; KS(I)-1; KS(A)-1; KS(S)-1

This conformity certificate confirms the conformity
of the product with essential safety requirements
of the following EC/EU New Approach Directives
as amended:

2006/42/EC Machinery Directive
2014/35/EU Low Voltage Directive
2014/30/EU Electromagnetic compatibility

European harmonized standards used for conformity
assessment :

EN 619:2002+A1:2010
EN 60204-1:2006/A1:2009/AC:2010
EN 61000-6-2:2005/AC:2005
EN 61000-6-4:2007/A1:2011

The certificate has been issued on the basis of the tests
of the product type sample.
The results are recorded in the Conformity assessment
report No. 200500079 dated 30.06.2020

CE mark can be used only in the case of conformity
assessment according to all relevant
EC/EU Directives

A light gray map of Europe serves as the background. It is populated with 14 yellow location pins. The pins are distributed across the continent: one in the Iberian Peninsula, one in France, one in Germany, one in Poland, one in the Czech Republic, one in Slovakia, one in Hungary, one in Romania, one in Bulgaria, one in Greece, one in Italy, one in Spain, one in the United Kingdom, one in Ireland, and one in the Baltic region (Sweden/Finland area).

Let's work together!
